REALE MUSEO INDUSTRIALE
ITALIANO
SCUOLA
DI ELETTROTECNICA

Ferraris

Torino, July 19th 1893

Mr. Ralph W. Pope
Secretary American Institute
of electrical Engineers
At Headquarters
World's Fair
Chicago

Dear Sir

My apparatus which, as you know, had sunk in the harbour of Genoa, and only after three days had been taken out, were very seriously spoiled. Still I have made my best in repairing them, and at present they, as they are, have been shipped again on the steamer Werra which will leave Genoa next Sunday 23th inst.. I hope that this time they will reach America. They will probably arrive at Chicago on August 10th or 12th -

The box which contains the apparatus is adressed to you, as you will find within it everything disposed as I explained to you in my letter of May 19th -

As I was appointed by the Italian Government as its official Delegate to the electrical congress, I shall have before long the pleasure of making your personal acquaintance; and so I shall be able to thank you by word of mouth. Meanwhile I anticipate to you the expression of my thankfullness for the trouble you kindly will take for my little objects -

Your sincerely

prof. Galileo Ferraris
